## Typhoon 1 Air Cooled Range After Service Checklist

Description	6	12	Comments
Burner pattern correct			
Smoke emission correct			
Ignition spontaneous			
Line pressure fuel pump			Reading
Relief valve pressure			
Leaks from pump			
Leaks from relief valve			
Operation of pump correct			
Flow switch operation correct			
Chemical system high pressure			
Chemical system low pressure			
Condition of mains cable			
Electrical control box checked			
Condition of hose			
Condition of lance			
Operation of air switch			
Motor amps on full load			Reading
Motor amps on by pass			Reading
Condition of burst disc			
Condition of piping underneath			
Inspection of inner lid and cone			
HT lead inspection			
Inspection of fuel tank			
Check engine speed
